Enviably Two Car

A while back, Garage Style Magazine featured this hot rod two-car garage and it got a lot of interest. The owner turned the door into a one-car situation but installed a lift on the solid side to store cars. He also has a car diagonally across the back wall which allows for one more car to fit within, four cars total. Part of the reason this garage received such interest was the ingenuity of space planning, the fact that he could get four cars in a two-car garage. Granted, yes, the garage had been slightly widened and lengthened, but not by so much that it became a behemoth garage – it retained the smallness that made it suitable for the property. It's amazing what a couple of extra feet and a lift can do.

Bill Warner Named 2019 Enthusiast of the Year

The Concours d'Elegance of America named Bill Warner, the founder of the Amelia Island Concours d'Elegance, as the 2019 Enthusiast of the Year. Having been around cars his entire life, he developed a bug for motor racing as a teenager working for the local Volkswagen dealership and its racing team, where he largely developed his fascination for racing. Becoming a well-known author and photographer, Bill met thousands of industry professionals and launched the Amelia Island Concours d'Elegance to raise funds for various charities. A stickler for originality, Bill is a unique soul as he can switch from racecars to factory Concours winners with ease. An easygoing personality, Bill seems to befriend everyone who meets him. The Concours d'Elegance of America will feature a class of Bill's favorite cars at their event on July 28, 2019.

E-BLAST - SPECIAL EDITION NEWSLETTERS

Advertising is removed, and the stage is set for you to promote your event, company, or product exclusively to our readers one-on-one. No other information but yours is presented - it's your concert. Launched between the standard newsletters, space is limited as they are only produced a couple of times per month. Imagine, a reader-focused medium through which your message is delivered solely to them, complete with images and links to illustrate and guide them to your website. The stage is waiting - let's get your production rolling! Click [here](#) to see a sample of a previous E-Blast.
